WHAT SPONSORSHIP LOOKS LIKE

Like radio advertising, podcasts are a 'warm' way to reach people and promote ideas. We will include your logo, links, promotions, and more at the start and end of episodes and clips – in the specific markets that you want to reach.

We have several different sponsorship packages to choose from. Since our total focus is to grow the show, we will ensure that as much of your sponsorship goes to growing the podcast, attracting a larger audience, and supporting your company, services, or products. Contact us to learn more.
